

Congratulations

You are engaged! That was the easy part. Having been in the industry for over twelve years, I'll guide you effortlessly through the process. Your wedding imagery should be just as unique as you are - a reflection of your personality. By taking the time to meet with you before your important day to discover your personal style and preferences, I make sure that your album is just that - yours. Also, each client gets to keep their images - all of them. Why should you have to pay more for the negatives or digital files? Please feel free to ask questions regarding color versus black and white, digital versus film, traditional versus the non-traditional and the various types of coverage and styles for your wedding day. No matter how big or small your wedding, I can take care of your photographic needs so that you can concentrate on more important matters - the honeymoon!

POLICIES AND PROCEDURES

A non-refundable deposit of \$500 is required to procure the date of your wedding.

I require a signed contract that clearly states the specified services included in the package as well as payment schedule.

All packages require a pre-wedding consultation the week before the wedding. The remainder of the balance is due at this time.

All prices include taxes, labor and materials.
